Dear Parents/Guardians,

The health and safety of our students, staff, and teachers remains of greatest importance to St. George CCSD No. 258. Your patience and understanding as we work to remedy the air quality issues within the mobile classrooms has been greatly appreciated.

We are very happy to report that St. George CCSD No. 258 received clearance today from Midwest Environmental Consulting Services and the I-KAN Regional Office of Education for full occupancy of the south mobile unit. The south mobile unit was thoroughly cleaned and sanitized. It passed visual inspections and air quality tests conducted by Midwest Environmental Consulting Services. As a result, Mrs. MacGilvray's classroom and Mrs. Rottmann's classroom will be moved back into the south mobile unit this weekend so that they will be ready for students on Tuesday.

We anticipate full occupancy of the north mobile unit sometime next week. We will send an update with more information when it becomes available.

We are very thankful to the mold remediation company working under the direction of Midwest Environmental Consulting Services for their quick and thorough response to the mold remediation and cleaning within the mobile units. We are also extremely grateful to our maintenance and custodial staff for all of their hard work in preparing the mobile units for occupancy ahead of our anticipated schedule, to our faculty and staff for their patience and understanding during the mold remediation process, and to the St. George Catholic Church for their kindness and partnership.

If you have any questions, please contact the District Office directly at (815) 802-3102.

Sincerely,

Helen M. Boehmson  
Superintendent of Schools
