September 5, 2018

Dear Parents/Guardians,

We are very happy to report that St. George CCSD No. 258 received clearance today from Midwest Environmental Consulting Services and the I-KAN Regional Office of Education for full occupancy of the north mobile unit. Like the south mobile unit, the north mobile unit was thoroughly cleaned and sanitized. It passed visual inspections and air quality tests conducted by Midwest Environmental Consulting Services. To facilitate a smooth transition, the north mobile unit classrooms will be moved in two stages. Mrs. Spencer's students will be back in their classroom within the north mobile unit on Thursday. On Friday, Mrs. Harrington's classroom will be back into their classroom within the north mobile unit. Band and Music classes will be held in the Band Room beginning Friday as well.

As we stated in our 08/31/2018 Letter to Parents, we are very thankful to the mold remediation company working under the direction of Midwest Environmental Consulting Services for their quick and thorough response to the mold remediation and cleaning within the mobile units. We are also extremely grateful to our maintenance and custodial staff for all of their hard work in preparing the mobile units for occupancy ahead of our anticipated schedule, to our faculty and staff for their patience and understanding during the mold remediation process, and to the St. George Catholic Church for their kindness and partnership.

If you have any questions, please contact the District Office directly at (815) 802-3102.

Sincerely,

Helen M. Boehrsen
Superintendent of Schools
